Isoft Rebound Trade - Close

TRADE SUMMARY	
Close Date	19/03/2010
Stock Code	ISF
Trade Entry Price	\$0.480
Trade Exit Price	\$0.535
Trade Return (gross)	110%
Trade Return (net)	100%
Time Open	3 Days

The total trade return is based on a net share price return of 11% and a CFD margin ratio of 10%.

For anyone lucky enough to participate in the ISF trade we are recommending a closing for a 11% return or 110% with 10 times gearing.

The stock crept away from us and unfortunately despite having the trade available online in time to participate at 48 cents, it had rallied to 49 by the time the email made it out and therefore, we did not participate in this trade ourselves.

All CFD returns are based on risk and without the use of guaranteed stops could incur an additional 30% for slippage.

*Net returns are after brokerage but exclude funding costs
